**2.4.2 Students go through a set of activities as preparatory to school-based practice teaching and internship. Pre practice teaching / Internship orientation / training encompasses certain significant skills and competencies.**

### **1. Formulating learning objectives**

Formulating learning objectives is the basic skill for B.Ed. students as all their further activities depend on that. So, objectives as one of the micro skills, as well as subskills are discussed at length in every pedagogy subject. Moreover, students are given so much practice to write these objectives and corrections done repeatedly that they become masters in writing objectives before they go for their practice teaching. Teachers always plan presentations, aids and their lecture prior the class and write them down in their daily planners. They plan various discussions, activities etc. Teachers take revision and extra classes to ensure successful achievement of learning objectives.

## 2. Content Mapping

Content Mapping with the Program learning outcomes and Course learning outcomes is done and teachers are well-trained in this aspect.

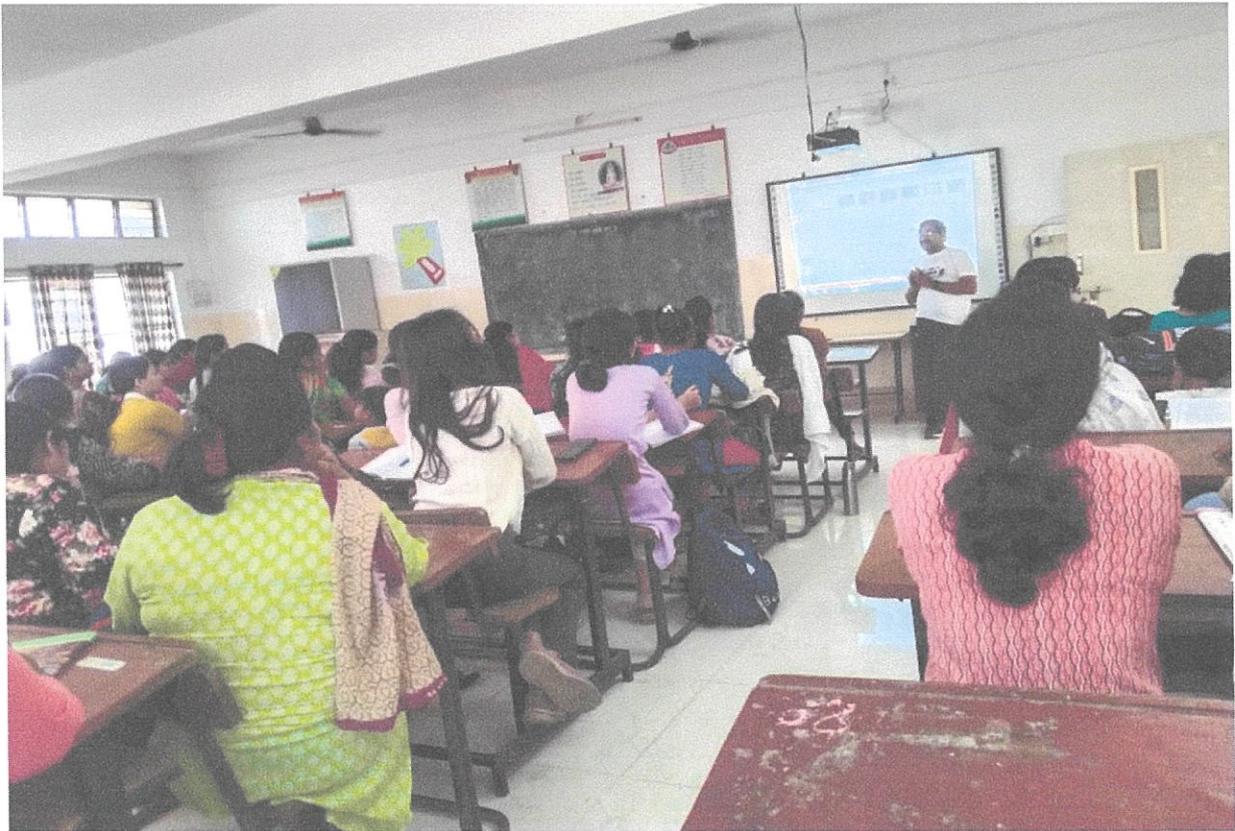

## 3. Lesson planning

Lesson planning is a very crucial aspect of B.Ed. curriculum which is appropriately addressed in Pedagogy subjects. But to reinforce, all the skills and competencies a focused pre practice orientation workshop is held every year where all the teachers take specific workshops regarding different types of Lesson planning such as Micro lesson plans based on Constructivist Lesson Planning, Model based, ICT based & Micro Lessons. The students get ample of practice in making these lesson plans by their respective subject teacher in-charge before going for the teaching practice.

#### 4. Identifying varied student abilities

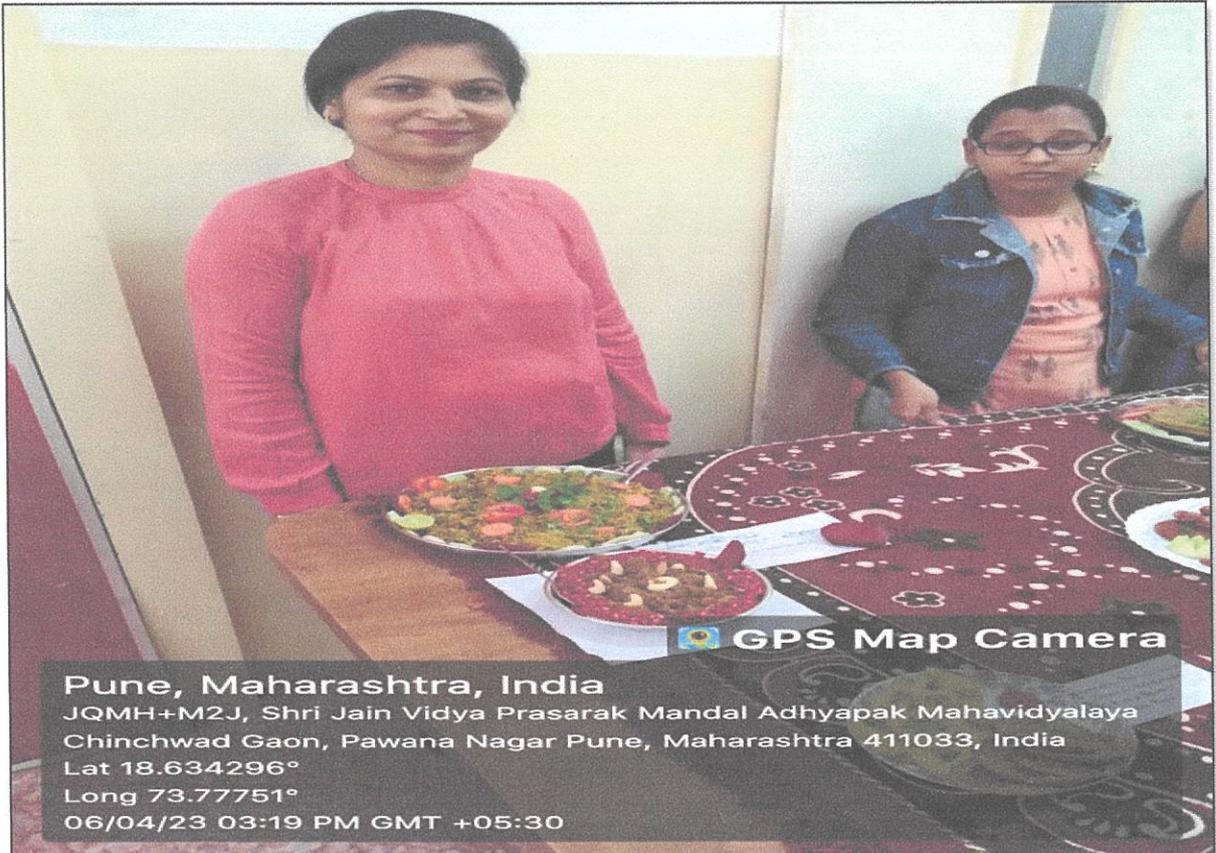

The students of varied abilities are identified by means of entry behavior tests right in the beginning of the session. Even before that they are given orientation about the college and curriculum and different types of activities that are carried out throughout the year. The students are accordingly identified on the basis of class observations, class tests and in-house tests and remedial/enrichment classes are accordingly provided to them.

Talent hunts activities are often conducted to identify the hidden talents among the students and are nurtured through training in various activities such as cooking, literary, dramatics, dance, etc.

## 5. Dealing with student diversity in classrooms

The college faculty respects and value diversity which is reflected in its day-to-day functioning. The infrastructure is disabled-friendly and barrier-free with ramps, provision of wheel chair for handicapped students. The teachers' use English and Marathi languages and students can appear in any of these mediums in the examinations.

Teachers not only trainee students but also provide them with proper-guidance and counsel them time to time especially with regard to children with diverse needs. They are taught various special subjects in their curriculum such as Inclusive education, Education of children with special needs at B.Ed. level, All the students are taught together and sections are made simply roll.no. wise without any differentiation.

The image shows a screenshot of a presentation slide. The slide is titled "Activities in constructivist classroom" in English and "रचनावादी वर्गातील उपक्रम" in Marathi. The slide is divided into two columns. The left column lists activities: Experiments, Research project, Field trips, Films, and Class Discussions. The right column lists activities: प्रयोग, संशोधन, प्रकल्प फील्ड ट्रिप, चित्रपट, and वर्ग चर्चा. Below the list, there is a paragraph in English describing the role of teachers in a constructivist classroom. The slide is displayed on a screen with a blue background and a white border. The screen also shows a menu bar at the top with options like Paragraph, Drawing, and Editing. On the left side, there is an outline panel with several thumbnails. At the bottom of the screen, there is a text box that says "Click to add notes".

**Activities in constructivist classroom**  
**रचनावादी वर्गातील उपक्रम**

- Experiments
- Research project
- Field trips
- Films
- Class Discussions

**प्रयोग**

- संशोधन
- प्रकल्प फील्ड ट्रिप
- चित्रपट
- वर्ग चर्चा

**शिक्षकांची भूमिका:** - रचनावादी वर्गात शिक्षकांची भूमिका चर्चला गती देणे आणि सुलभ करणे असते. शिक्षकांचे मुख्य लक्ष विद्यार्थ्यांना प्रश्न विचारून मार्गदर्शन करण्यावर असले पाहिजे, ते या विषयावर त्यांचे स्वतःचे निष्कर्ष विकसित करण्यास प्रवृत्त करेल.

In the constructivist classroom the teacher role is to prompt and facilitate discussion. The teachers' main focus should be on guiding students by asking questions, it will lead them to develop their own conclusions on the subject

## 6. Visualizing differential learning activities according to student needs

The students' differential needs are always catered to. The students from economically weaker and disadvantaged sections are provided fee concessions. The students are given orientation to various Govt. Scholarship Schemes from time to time. Talent hunts are conducted to identify their specific talents and training is given accordingly to nurture their talents.

Teachers use various methodologies such as experiential learning, Interactive discussions and counseling. Moreover, the college organizes various workshops for the students. The college organizes various Field Visits for the students to give them exposure to community engagement. The students not only come together to gain knowledge but also to serve society. In this form, many Out of Classroom Activities are also conducted to enhance their personality, to find equality and diversity.

## 7. Addressing inclusiveness

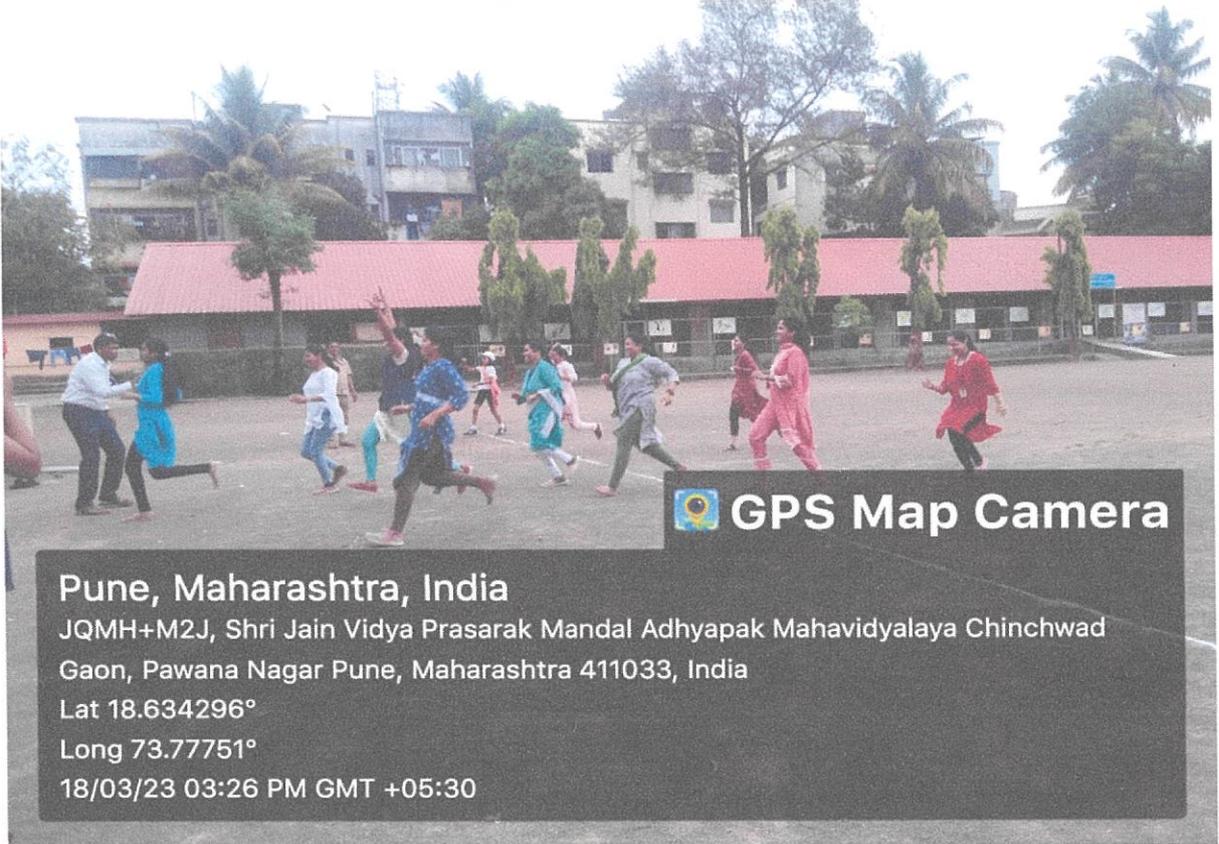

Institute emphasizes inclusion and creates a barrier-free environment for its students. There are lifts, provision of wheel chair, for the handicapped students and the entire infrastructure is disabled friendly. Apart from this the students coming from different states speaking different languages, different castes, cultures, religions are readily accommodated. All national, regional and local festivals are celebrated from time to time and diversity is acknowledged and valued.

To address inclusiveness, institute organizes various Visits to special children school or integrated schools to facilitate Inclusive Education for the students. The students come together to help students and kids with learning or physical disability. Teachers prepare the trainee teacher to help these and make society a better place for them. Teacher's counsel and guide students academically and personally, every time. Moreover, college organizes and conduct various fun and physical activities for the students and the staff to relax and stay fit.

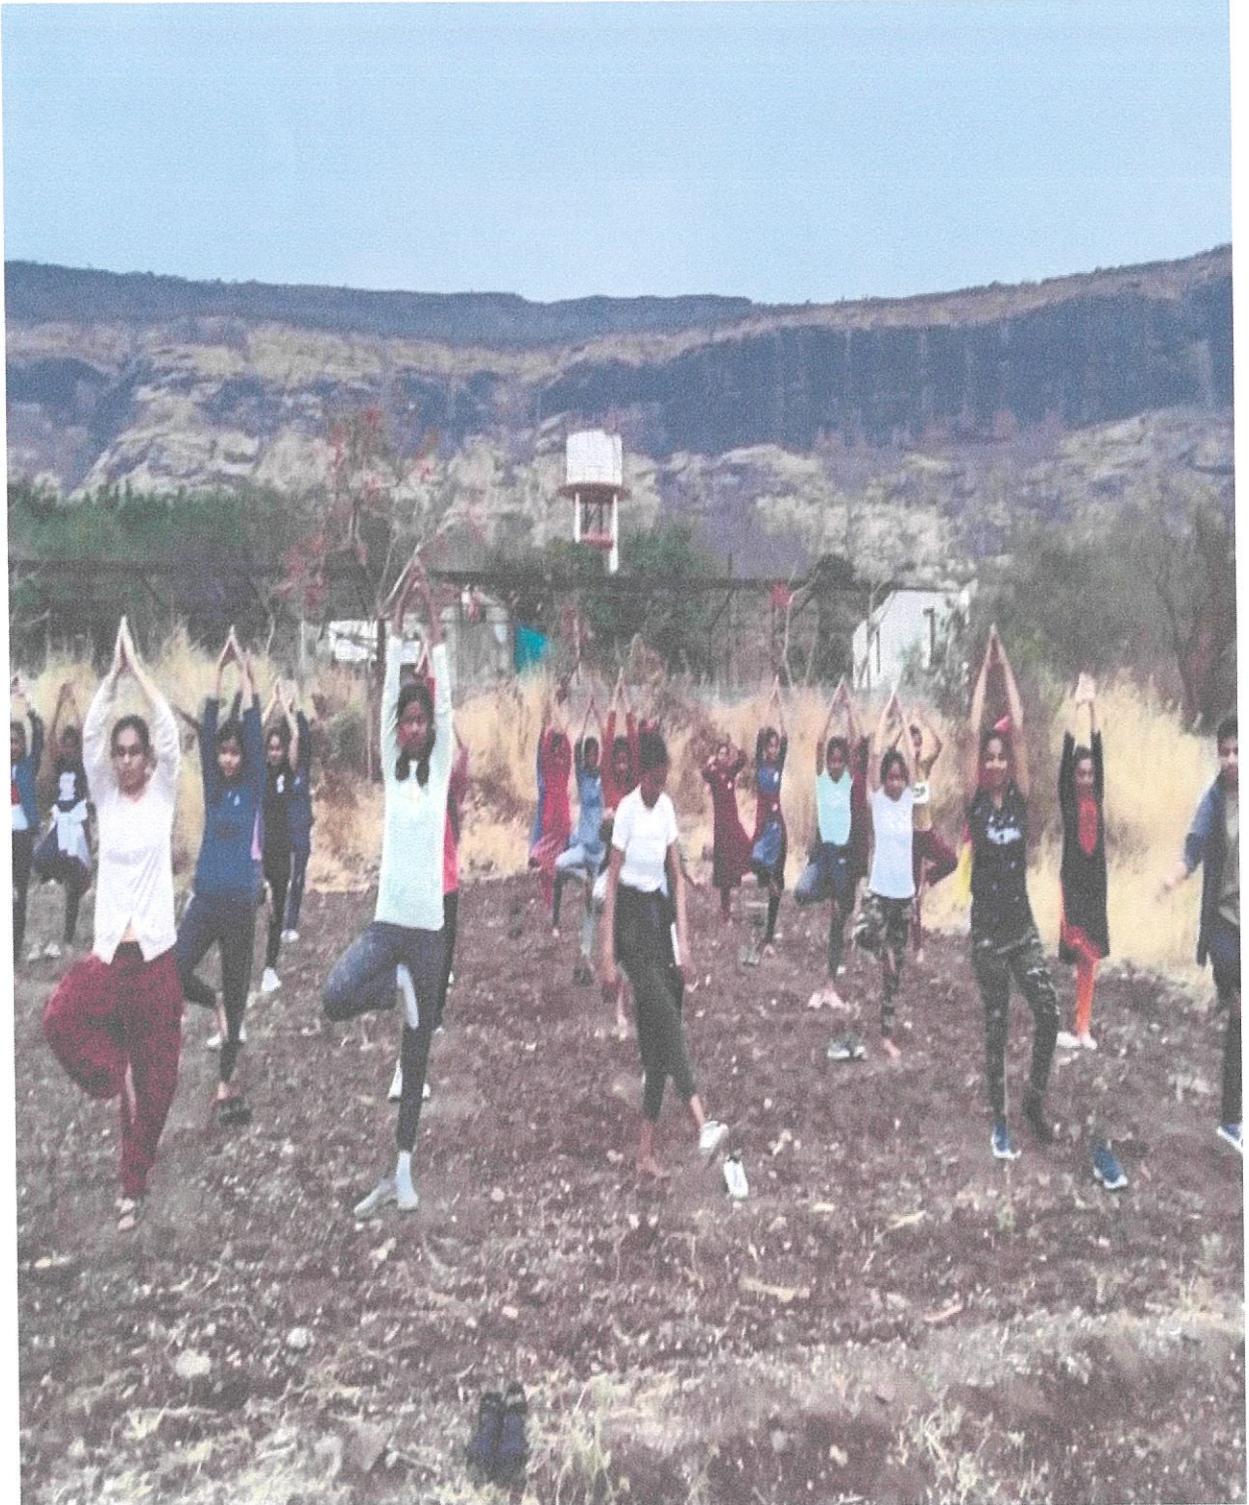

### Yoga Session

## Sports Activity

## Yoga Session in NSS Camp

## 8. Assessing student learning

The students are also demonstrated how to assess the student learning with the help of different types of tests and how to prepare a Models based lesson plan. The students have a complete subject "Assessment of learning" which also provides the students the ample skills of assessment. Their own learning in various subjects is assessed through entry class tests, class observations, regular classroom questioning, discussion lessons, MCQ exam, internal exams, practical work submitted by students and final university examinations, College has ramp facilities for special students and guidance and counseling cell for their problems. Teachers keep a constant check on them to ensure they are at their ease and feel comfortable and get a proper learning environment. Their learning is assessed through class tests, house exams, and term end semester examinations, activities for internal assessment through their sessional work, attendance and class interactions. They are also assessed for their responsible behavior, participation in sports, cultural and NSS activities

### Planning of MCQ and Internal Exam
