Plastic Free Campus

Plastic Free Campus, PFC is dedicated to helping schools fight single-use plastic pollution worldwide. PFC helps schools make a difference for the environment, social justice and our own health. Plastic pollution is a real issue – just look around. Plastics are made from oil and gas and their production harms our environment from added greenhouse gases. Nature can't digest it, Plastics break UP into smaller pieces called micro-plastics. It never breaks down

All Teaching and Non-Teaching Staff members used Paperless Bio Metric Machine for attendance

A paperless office (or paper-free office) is a work environment in which the use of paper is eliminated or greatly reduced. This is done by converting documents and other papers into digital form, a process known as digitization. Proponents claim that "going paperless" can save money, boost productivity, save space, make documentation and information sharing easier, keep personal information more secure, and help the environment. The concept can be extended to communications outside the office as well.

Green Landscaping with trees and plants

Green landscaping is an environmentally conscious approach to managing and designing gardens and landscapes. When we incorporate sustainable practices into our gardens, like choosing native plants, conserving water and energy, and promoting biodiversity, we can help create healthier and more eco-friendly
